*For vehicles manufactured on or after January 1st, 2006, there's a new regulation in place, limiting the position of light/lamp (e.g. fog light, turn-signal lamp). Please adjust the ride height to secure the minimum ground clearance from such light/lamp, to comply with Japan's vehicle safety regulations. For details on inspection standards, please contact the nearest National Agency of Vehicle Inspection. TEIN dampers & springs are designed to comply with the regulations at the standard ride height drop.
