*For vehicles manufactured on or after January 1st, 2006, there's a new regulation in place, limiting the position of light/lamp (e.g. fog light, turn-signal lamp)
Please adjust the ride height to secure the minimum ground clearance from such light/lamp, to comply with Japan's vehicle safety regulations.
For details on inspection standards, please contact the nearest National Agency of Vehicle Inspection.
TEIN dampers are designed to comply with the regulations at the standard ride height drop.
